YEARS	WEBSITES	CUSTOM MODULES	GLOBAL BRANDS

PROFILE

Web developer with 10+ years of experience delivering CMS websites, CRM integrations, and modern web applications for international clients. Delivered 400+ websites and 500+ custom modules for 300+ global brands. Specializes in HubSpot, WordPress, and Shopify, with React, Next.js, and API integration experience. Creator of Kamaliya Meta Fields Builder, an open-source WordPress custom fields plugin. Experienced in project delivery, performance optimization, and long-term client support.

PROFESSIONAL EXPERIENCE

Web Developer | End-to-End HubSpot, Shopify & WordPress Solutions

Upwork | Full-time — August 2019 - Present
India | Remote

- Provide end-to-end web development solutions across WordPress, Shopify, and HubSpot, from design and development to integrations, optimization, and ongoing support.

HubSpot Expert and Web Developer

2CUBE Studio / Freelance — May 2022 - Present
Rajkot, India | International clients

- Deliver web projects from requirements and development through testing, deployment, and post-launch support, collaborating with clients and internal teams.
- Build custom HubSpot themes, modules, landing pages, and email templates; develop websites and applications with WordPress, Shopify, React, Next.js, and Astro.
- Integrate third-party applications and APIs, and migrate website content, products, and customer data between platforms.
- Troubleshoot production issues and improve website performance, responsive behavior, and technical implementation.

TECHNICAL SKILLS

HubSpot
CMS and CRM, HubL, HubDB, drag-and-drop themes, custom modules and objects, membership pages, workflows, contacts, deals, and ticket pipelines.

WordPress
Custom themes and plugins, Gutenberg, ACF Pro, custom post types, Elementor Pro, WPBakery, headless CMS, and multisite.

Shopify
Liquid, custom themes and sections, storefront customization, app integrations, and performance optimization.

Front End
JavaScript (ES6+), TypeScript, React.js, Next.js, Astro, Vue.js, Redux, HTML5, CSS3, Tailwind CSS, and jQuery.

Back End & APIs
PHP, Node.js, Express.js, MySQL, PostgreSQL, REST APIs, GraphQL, and Git/GitHub.

AI & Automation
OpenAI and LLM integrations, customer support automation, and workflow automation.

Web Delivery
Figma, Adobe XD, and PSD to responsive code; technical SEO, page speed optimization, Google Analytics, and CMS migrations.

HubSpot Developer

Remotish April 2019 - August 2022

Remote | San Diego, California, United States

- Developed and maintained custom HubSpot CMS websites and themes for US-based clients.
- Built and optimized reusable HubL modules, HubDB-driven pages, and API integrations.

Email and HubSpot Developer

eSparkBiz Technologies Private Limited August 2016 - March 2019

Ahmedabad, Gujarat, India

- Delivered 200+ responsive email templates and 50+ full websites, with a focus on design implementation and HubSpot CMS development.
- Completed 50+ WordPress projects, resolving design and development challenges.

Web Designer Trainee

AGILE Infoways January 2016 - July 2016

Ahmedabad, Gujarat, India

- Trained in web design principles, responsive layouts, and front-end development fundamentals.

OPEN SOURCE PROJECT

Kamaliya Meta Fields Builder

Creator and Developer • **WordPress plugin**

Developed an open-source custom fields and meta box builder that gives WordPress developers an ACF-style workflow for managing structured content.

- Built support for Gutenberg and classic editing screens, with drag-and-drop field ordering.
- Implemented repeater and nested repeater fields to manage complex, repeatable content structures.
- Added an ACF-style field retrieval helper with automatic JSON decoding for template integration.

GitHub • WordPress.org
